CONTENTS OF VOLUME 469

September 1993

AUSTIN Clare & WRAY Susan Changes of intracellular pH in rat mesenteric vascular smooth muscle with high-K^+ depolarization. 1

HEAD Stewart I. Membrane potential, resting calcium and calcium transients in isolated muscle fibres from normal and dystrophic mice. 11

FOX Alyson J., BARNES Peter J., URBAN Laszlo & DRAY Andy An *in vitro* study of the properties of single vagal afferents innervating guinea-pig airways. 21

KOCSIS Bernat, FEDINA Laszlo, GYIMESI-PELCZER Katalin, LADOCSI Terez & PASZTOR Emil Differential sympathetic reactions during cerebral ischaemia in cats: the role of desynchronized nerve discharge 37

MOHAMMED S.P., HIGENBOTTAM T.W. & ADCOCK J.J. Effects of aerosol-applied capsaicin, histamine and prostaglandin E_2 on airway sensory receptors of anaesthetized cats. 51

REICHLING David B. & MACDERMOTT Amy B. Brief calcium transients evoked by glutamate receptor agonists in rat dorsal horn neurons: fast kinetics and mechanisms. 67

OSMANOVIĆ Smajo S. & SHEFNER Sarah A. Calcium-activated hyperpolarizations in rat locus coeruleus neurons *in vitro*. 89

BÉNITAH Jean-Pierre, GOMEZ Ana Maria, BAILLY Patrick, DA PONTE Jean-Philippe, BERSON Guy, DELGADO Carmen & LORENTE Paco Heterogeneity of the early outward current in ventricular cells isolated from normal and hypertrophied rat hearts. 111

WANG W., BRÄNDLE M. & ZUCKER I. H. Indomethacin reduces acute baroreceptor resetting in the dog. 139

ROBBINS J., MARSH S.J. & BROWN D.A. On the mechanism of M-current inhibition by muscarinic m1 receptors in DNA-transfected rodent neuroblastoma × glioma cells. 153

TASKER Jeffrey G. & DUDEK F. Edward Local inhibitory synaptic inputs to neurones of the paraventricular nucleus in slices of rat hypothalamus. 179

RYDQVIST B. & PURALI N. Transducer properties of the rapidly adapting stretch receptor neurone in the crayfish (*Pacifastacus leniusculus*). 193

MILLER L.E., VAN KAN P.L.E., SINKJÆR T., ANDERSEN T., HARRIS G.D. & HOUK J.C. Correlation of primate red nucleus discharge with muscle activity during free-form arm movements. 213

ZHOU Zhuan & NEHER Erwin Mobile and immobile calcium buffers in bovine adrenal chromaffin cells. 247

WALL M.J. & DALE N. $GABA_B$ receptors modulate glycinergic inhibition and spike threshold in *Xenopus* embryo spinal neurones. 275

SOLOMON Joel S. & NERBONNE Jeanne M. Two kinetically distinct components of hyperpolarization-activated current in rat superior colliculus-projecting neurons. 291

WELLIS David P. & KAUER John S. $GABA_A$ and glutamate receptor involvement in dendrodendritic synaptic interactions from salamander olfactory bulb. 315

SCHILD J.H., KHUSHALANI S., CLARK J.W., ANDRESEN M.C., KUNZE D.L. & YANG M. An ionic current model for neurons in the rat medial nucleus tractus solitarii receiving sensory afferent input. 341

RUSSELL J.A., COOMBES J.E., LENG G. & BICKNELL R.J. Morphine tolerance and inhibition of oxytocin secretion by κ-opioids acting on the rat neurohypophysis. 365

PENINGTON Nicholas J., KELLY John S. & FOX Aaron P. Whole-cell recordings of inwardly rectifying K^+ currents activated by $5\text{-}HT_{1A}$ receptors on dorsal raphe neurones of the adult rat. 387

PENINGTON Nicholas J., KELLY John S. & FOX Aaron P. Unitary properties of potassium channels activated by 5-HT in acutely isolated rat dorsal raphe neurones. 407

MCBRIEN Neville A., MOGHADDAM Hadi O., NEW Robert & WILLIAMS Leslie R. Experimental myopia in a diurnal mammal (*Sciurus carolinensis*) with no accommodative ability. 427

BARRETT J., MCDOUGALL J.J. & MORRISON J.D. Enhancement by atropine of the pancreatic exocrine secretions evoked by vagal stimulation in the pithed rat. 443

KIENS Bente, ÉSSEN-GUSTAVSSON Birgitta, CHRISTENSEN Niels Juel & SALTIN Bengt Skeletal muscle substrate utilization during submaximal exercise in man: effect of endurance training. 459

DAY B.L., STEIGER M.J., THOMPSON P.D. & MARSDEN C.D. Effect of vision and stance width on human body motion when standing: implications for afferent control of lateral sway. 479

DUNIA Richard & HERRERA Albert A. Synapse formation and elimination during growth of the pectoral muscle in *Xenopus laevis*. 501

SCHOLZ Holger, VOGEL Urs & KURTZ Armin Interrelation between baroreceptor and macula densa mechanisms in the control of renin secretion. 511

MILTON N.G.N., HILLHOUSE E.W. & MILTON A.S. Does endogenous peripheral arginine vasopressin have a role in the febrile responses of conscious rabbits? 525

LANGTON P.D. & STANDEN N.B. Calcium currents elicited by voltage steps and steady voltages in myocytes isolated from the rat basilar artery. 535

GODAUX E. & CHERON G. Testing the common neural integrator hypothesis at the level of the individual abducens motoneurones in the alert cat. 549

GULBINS E., HOFFEND J., ZOU A.P., DIETRICH M.S., SCHLOTTMANN K., CAVARAPE A. & STEINHAUSEN M. Endothelin and endothelium-derived relaxing factor control of basal renovascular tone in hydronephrotic rat kidneys. 571

BOUCHARD R.A., CLARK R.B. & GILES W.R. Regulation of unloaded cell shortening by sarcolemmal sodium–calcium exchange in isolated rat ventricular myocytes. 583

GRASSI C., DERIU F. & PASSATORE M. Effect of sympathetic nervous system activation on the tonic vibration reflex in rabbit jaw closing muscles. 601

DELA Flemming, HANDBERG Aase, MIKINES Kári J., VINTEN Jørgen & GALBO Henrik GLUT 4 and insulin receptor binding and kinase activity in trained human muscle. 615

FLEISCHMANN Bernd K., WASHABAU Robert J. & KOTLIKOFF Michael I. Control of resting membrane potential by delayed rectifier potassium currents in ferret airway smooth muscle cells. 625

MLINAR Boris & ENYEART John J. Block of current through T-type calcium channels by trivalent metal cations and nickel in neural rat and human cells. 639

PAREKH Anant B., FOGUET Montserrat, LÜBBERT Hermann & STÜHMER Walter Ca^{2+} oscillations and Ca^{2+} influx in *Xenopus* oocytes expressing a novel 5-hydroxytryptamine receptor. 653

VALLBO Å.B. & WESSBERG J. Organization of motor output in slow finger movements in man. 673

ALFORD Simon, FRENGUELLI Bruno G., SCHOFIELD J. George & COLLINGRIDGE Graham L. Characterization of Ca^{2+} signals induced in hippocampal CA1 neurones by the synaptic activation of NMDA receptors. 693

RENTERO N., KITAHAMA K. & QUINTIN L. Baroreceptor reflex-linked changes in catechol metabolism in the rat rostral ventrolateral medulla. 717

PINHEIRO Joaquim M.B. & MALIK Asrar B. Mechanisms of endothelin-1-induced pulmonary vasodilatation in neonatal pigs. 739

DAKKA Taoufiq, CUBER Jean-Claude & CHAYVIALLE Jean-Alain Functional coupling between the active transport of glucose and the secretion of intestinal neurotensin in rats. 753
